In Ch'ansh's, a district of the Southow prefecture, several banks and a jewellery store have been entered by burglars, who broke open the single night. The robbers carried lighted torches and firearms. They took no pains to conceal their intentions, no doubt relying upon their great numbers and knowing the ineffectual

police arrangements in the city. A woolthy man living in the suburbs of Socchow one day received a note saying that the sender and a party of his friends were short of money and requesting a loan of three dollars to carry them to their destination, and that they would come on a certain day to collect it. No thought was given to the letter, it being considered a joke. On the day mentioned in the letter a party of five men appeared nd demanded the money. The wealthy man was surprised, and refused, upon which the leader said, "Don't make us angry; but we will not take your money for nothing. We will show you some gemnastics." W. DOBERCK Hongkong Observatory, January 9th, 1891.

WE CAN ONLY SAY THAT HIS INITIALS ARE "J. D."

When a woman travels ten miles merely to ask a few questions we may assume that her i onriosity is excited. In the year 1883 a story went forth from Leverstock Green, Hemel Hempstead, Harts

which aroused great interest in all the region thereabout. People came from various directions to enquire into the matter; what was al leged to have occurred had to do mo the with one man. If the story turn dont to be true some good was likely to come of it; if false, it would only put the community were on their guard against all sorts of wild rumours. Among the women who were bound to get at the foundation of it was one from St. Albans and a cook from Langley.

How strangely things work out in this queer world. Seven years have passed and the facts are now to become generally public for the first time. It appears that about the first of Januany, 1883, an old resident of the place above named was said, and commonly believed, to be in a dving condition.

For five months an able and elever physician had been attending him constantly, no medical men could have done more. His ailment was decided to be gout and rheumatism, which are now held to be practically the same malady differently located

time ran along the patient grew worse. The doctor's ability and experience didn't seem to count. The sufferer's ankles, feet, and hands became badly swollen: We all know this must their risk, into the Godowns of the Kowloon have leen a scary symptom because that the Wharf and Godewn Company, at Kowloon, fluide of his body (and the body is nearly all whence and/or from the wantees delivery may fluid anyway), instead of being carried off as be obtained; they naturally should be were flowing over their channels and inundating the parts around them, just as a stream does after heavy rains. The doctor said the danger of this state of things lay in the fact that when the water undelivered after the 12th inst. will be subject reached the heart of lungs it might end in to cent. suides death. The cause of dropsy is the refusal of the kidneys to carry off the water; so much is plain. But what makes the kidneys strike work . We now know the reason of that It. is because they are partially paralysed by a poison in the blood, arising from undigested food in the stom oh. In plain English, a chronic state of indigestion and dyspensia was responsible for results which now threatened our unknown friend's life. It was reportedand of its truth there mak a doubt that his abdomen was blown like a bladder on account of the water which soaked all through his flesh. In conversation a few weeks ago, he said, " All my friends now looked on me as a dying man." And reasonably enough foo; for what chance is there for a man who is gradually drowning in this way? For that is what it was drowning formed that all Goods are being landed and nothing else in the world Medicine at their risk, into the Godowns of the Kowloon appeared to be of no use, and the physician Wharf and Godown Company at Kowloon. suggested that possibly the poor man might be whence and/or from the wharves delivery may benefitted if he could go away from home and be obtained. try the baths, mineral waters, and change of scone and sir. But nobody believed in that plan, I notice to the contrary be given before Noon and in honest truth, it is hardly likely that the

About this time the patient's wife happened to be in the shop of a chemist at Hemel Hempstead, and he wave her a little book, a sort of small pamphlet, and said she might like to read | inst., or they will not be recognised. it. She did read it, and found in it a full description of the very complaint that was fast sending her bushand to his grave, and also the name of what was asserted to be a remedy for it. After some trouble she got him to consent to try it, and sent for a bottle. He began, and kept it up for four months, taking twenty-six bottles sitogether. At the end of that time he was a well, sound man, and is so to-day. The whole usigh bourhood was avuaged. His recovery. when he had been looked upon as no better than a dead man, set tongues wagging all around the been here now, if it had not been for Mother Seigel's Curative Syrup."
